PATEN
Docket: 030396

The Examiner has kindly afforded applicant an opportunity to more fully and clearly respond to the request to specify which claims read on which species.

Applicant maintains its previous election in favor of Group 1 claims 1-20 and 25-28.

With respect to the Examiner's requirement that Applicant elect a particular species, Applicant withdraws its previous election of a specific embodiment and hereby formally admits that each of the identified embodiments are directed to non-patentably distinct species, which species are believed to be obvious variants. Hence the requirement for election of a specific species is respectfully obviated.
